Dear *Prospective Sponsor*,

We are students from Lamar High School's award-winning robotics team. Our team is part of FIRST (For Recognition of Science and Technology), an international organization dedicated to promoting science and technology among the youth of the world.

Teams from various schools participating in the FIRST robotics competition, will compete in a different “game” each year. Students work closely with volunteer mentors from the engineering community as they design, build, and test a robot to meet the objectives of the game – all during a short six-week “build” period.

Robotics at Lamar High School provides students with a unique, real-world experience. We, the students, learn to collaborate, innovate, and apply our knowledge in hands-on ways that cannot be taught in the classroom. For many of us, robotics was our first exposure to engineering. We gained a wealth of hands-on experience in designing and building. As a result, many are contemplating further study in the fields of science and engineering.

Unfortunately this amazing experience does not come without a cost. Our experiences, which include registration fees for competitions and parts, can add up to as much as \$30,000! Even though this is a very high price for this competition it is well worth the learning experience and engineering introduction that we get with this program. For this reason we would like to solicit your financial assistance in sustaining Lamar's robotics program.

Last year we competed in the Lone Star Regional of the FIRST robotics competition and won many awards including the website award, the presidents circle award (video competition), judges award, and even won the competition! Hopefully with your help, we will be able to make this year an even bigger success!

If you want to find out more about our team please go on to our website, www.lamar.discobots.org, if you want to come see our workshop or schedule a presentation /demonstration of our last years robot at your company, contact us at lamarrobotics@gmail.com.

Thank you for your consideration. We look forward to your response!

Sincerely,

Sponsorship Team,
Lamar Robotics

Levels of Sponsorship

\$40,000	Title sponsorship with company name identified with the team name, custom framed shirt.
\$20,000	Name of Company in huge letters on the robot.
\$10,000	Company name on all shirts in huge letters.
\$5,000	Name of Company on the robot.
\$2,000	Company name on our shirts.
\$1,000	Name of Company on our banner.
\$500	Company name in the competition area for our team.
All	Receive a personalized team picture and link on our website.

*All of the lower mentioned services are also included in the higher price range.

How to Donate

Contact us via email, and we will send you a donation form and our non-profit tax ID.

Return the completed form to:

Lamar Robotics Club
c/o Josephine Managuit
3325 Westheimer Rd.
Houston, TX 77098

Checks can be made out to: Lamar High School (Robotics)

WISH LIST

TOOLS

Drills: Drill Press, Cordless Drill, Drill Bits

Saws: Miter Saw, Band Saw, Jig Saw

Hand Tools: Screwdrivers, Pliers, Hammers, Wrench Set, Wire Cutters, Socket and Ratchet Set, Files, Levels, T-Squares, Hack Saws, Rivet Guns

EQUIPMENT

Metal
Wood
PVC
Electrical
Tool Boxes
Safety Goggles
Gloves
Nuts, Bolts, Rivets, etc.
Button Maker

SERVICES

Machining
Welding
Printing
T-Shirts
Transportation
Advertising
Lodging
Graphical Design
Food
